<b>EXPERIENCE</b>	<p>PSYCHOLOGY ASSOCIATE, Daisy Pascualvaca, Ph.D., &amp; Associates, Washington DC. Assist in conducting comprehensive Real-Time Neuropsychological Evaluations™ for children, adolescents, and school-aged young adults with suspected attention, learning, neurodevelopmental disorders, or behavioral/socioemotional challenges. This includes administering and scoring neuropsychological, psychological, and academic achievement tests. Assist with the preparation of a written report describing the evaluation results.</p> <p>Use the same Real-Time™ approach when conducting admissions testing for independent schools to help schools determine if the student is a good match.</p> <p>PSYCHOLOGY ASSOCIATE, Children's National Medical Center, Washington DC. Provide evaluation services to patients, ranging from age 3-22, whose cognitive and/or behavioral functioning is compromised due to neurodevelopmental disorders and dysfunction. Some examples of such presentations include brain tumors, epilepsy, ADHD, congenital heart disease, Autism Spectrum Disorders, stroke, traumatic brain injury, sickle cell disease, in utero drug/alcohol exposure, etc. Work closely with Neuropsychologists to aid in the interpretation and case conceptualization, highlighting the patients' specific areas of strengths and challenges.</p> <p>DOCTORAL ASSISTANT, Main Street Community Mental Health Center, Reisterstown, MD. Aided psychiatrist, Lilly LaPorta M.D., during outreach appointments for patients in their homes. Worked closely with psychiatrists in monitoring the patient's progress, including their medication and other medical information.</p> <p>CHILD LIFE ASSISTANT, Nemours/Alfred I. DuPont Hospital for Children, Wilmington, DE. Assisted Child Life Specialists on the Blood &amp; Bone Marrow Transplant Unit, as well as the Child Life room for the hospital. Provided comfort and support for the patients. Engaged in one-on-one activities to help soothe the children while undergoing stressful medical procedures.</p> <p>NEUROPSYCHOLOGY EXTERN, Mount Washington Pediatric Hospital, Baltimore, MD. Provided inpatient and outpatient evaluation services to children &amp; adolescents ranging from age 5-18. Conducted neuropsychological evaluations to monitor children with conditions such as Autism Spectrum Disorder, psychological trauma, Traumatic Brain Injury (TBI), learning disabilities, etc.</p> <p>TEACHING ASSISTANT, Principles &amp; Practices of Psychotherapy, Loyola</p>	<p>since 2020</p> <p>2015-2020</p> <p>2013-2014</p> <p>2012-2013</p> <p>2014-2015</p> <p>2015</p>

University Maryland, Baltimore, MD. Co-facilitated a graduate-level supervision group consisting of counseling and clinical psychology master's students.

RESEARCH ASSISTANT, Department of Psychology, University of Delaware, Newark, DE. Assisted in the Peer Relations Lab by implementing the Kiva Anti-Bullying Program to 4<sup>th</sup> and 5<sup>th</sup> grade classrooms to teach the importance of positive peer interactions and monitor the students' thoughts and feelings. 2013
